Standard(s) for Safety: UL 1004 - Electric Motors

Additional Information: Electrical Ratings: All models are rated max 600 Vac, at 50Hz and 60Hz, or 50Hz/60Hz single phase and three phase, output 22 kW max, multi speed, with ambient temperature 40°C, insulation class "F".

Only those products bearing the UL Recognized Component Mark should be considered as being covered by UL's Recognition and Follow-Up Service.

The UL Recognized Component Mark generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark:  may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual recognitions.
